MEMORANDUM FOR: THE RECORD

SUBJECT : PSB Staff Meeting, Wednesday, 27 May 1953

25X1A 1. [REDACTED] reported that he had sent to the agencies late Tuesday afternoon a two-page statement of the major differences remaining to be settled in connection with PSB D-23 (Item No. 1 on the agenda for the meeting of 28 May). He reported that comments had already been received and that a revision of this paper would be published late this afternoon. It is my suggestion that, in view of the shortness of time and the necessity of extended explanation of the background of at least some of the points involved, [REDACTED] suggest to DCI that [REDACTED] CIA 25X1A panel representative, give DCI an oral briefing on the subject and/or accompany him to the meeting for this first item. The other agencies have been asked if they wish to have additional people at the meeting for this item only.

25X1A 2. The C. D. Jackson memorandum which is being considered as Item 2 on the agenda has not been seen by any member of the PP Staff so far as I know. [REDACTED] says that it was put on the Director's desk and at present 25X1C cannot be located. The only information on the memorandum gained at the [REDACTED] 25X1A

3. Item 3 is a general discussion item without (so far as I know) the necessity of reaching a decision as to the future of RIAS in the light of budget cuts and the recommendation of the Jackson Committee that activities of this type be placed under the aegis of the Ambassador in each country.

4. Under other business it is expected that C. D. Jackson will bring up:

a. An inquiry as to the preparations being made by any of the member agencies for the Bermuda Conference.

b. The possibility

b. The possibility of asking [REDACTED] to make his presentation to the Board a week from this Thursday.

c. A suggestion that the Air Force engage in "dusting operations" against [REDACTED].

5. It is possible that the State Department will also bring up the subject of the 1954 Escapee Budget. Apparently the original agreement provided that Yugoslav escapees not be included in the budget but that money would be provided under other items to take care of some of these escapees. State would now like to get the Yugoslavs in as part of the legislative history of the present budget. Godel and General Roberts emphatically stated that it was never intended to mention the Yugoslavs, and [REDACTED] affirms this stand. [REDACTED] will produce a briefing document for the Director on this subject. It is possible that General Smith will comment on the present problem concerning the morale of Communist POWs in Korea (belief in the possibility of forcible repatriation) and the questions arising out of Sygman Rhee's present stand.

6. [REDACTED] gave me a message for CPP that C. D. Jackson has called a meeting to discuss NSC 143 Friday afternoon, May 29. [REDACTED] would like to know whom CPP wants to send to this meeting. It would be my suggestion that [REDACTED] attend the meeting since he was the PP commenter on the psychological annex to the Grittenberger Report.

7. [REDACTED] reported that either Thursday afternoon, Friday, or Saturday a briefing for Attorney General Brownell will be given on the subject of brainwashing. It is expected that the film will be shown and statements on the non-military aspects and the military aspects of brainwashing will be given. [REDACTED] says that CIA will be responsible for the film and the statement on the non-military aspects.
